

A Premium Range of
Bright White Accessories

polar[™]

A Premium Range of Bright White Accessories

Developed as a distinctly different range to the traditional Click® accessory range manufactured by Scolmore International Ltd.

The Polar™ range was born out of a desire to offer a bright white accessory product. Colour choice with accessories is no different to colour choice of wallpaper, paints or other internal decorations. Installers have very definite views on just which tone or shade of white is right for a particular installation.

Given the demand for a different accessory colour we took the opportunity to review all other aspects of the new range including technical features, materials used and the aesthetic appeal of the individual products. The net result is a product quite different in a number of ways to the established Click® product but still offering the same levels of high quality and competitive pricing. So confident are we of the durability and reliability of the Polar™ product that we guarantee these products against any fault in materials or manufacture for no less than 20 years.

Polar™ accessories offer added value over the basic versions of similar products offered by our competitors and include the following:

- X rated modular plate switches – Polar™ light switches are all full 10AX rated switches of modular construction. The modular design allows installers infinite flexibility in devising customised switching arrangements. In fact the diversity of the types of modules available within the Polar™ range make this a true domestic grid system.
- Full certification on all 13A socket outlets and fused connection units. These products also feature twin earth terminals as standard.
- 45A shower switches are upgraded to 50A as standard to accommodate the growing demand for higher rated power showers.
- The sharp, crisp lines of the Polar™ plates are complemented by gently curved rockers on all switches plus modern grey backs and matching print to switches and plates alike. The modern feel of the Polar™ range is further enhanced by amber coloured neons throughout and matching amber switchgear on the 45A accessories. All neons are flush mounted.

20 YEAR No Quibble Guarantee

All Polar™ accessories are covered by our straight forward 'No Quibble Guarantee' against any fault in materials or manufacture experienced at any time within 20 years of the date of supply.

Antiviral & Antibacterial Certified

Polar™ plates are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases.

Polar™ plates have been independently tested and have shown to have anti-viral properties against enveloped and non-enveloped viruses.

After a contact period of 4 hours, Polar™ was shown to have a 99.9% kill off rate against enveloped viruses and a 92% kill off rate against non-enveloped viruses.

All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses.

Switches

A comprehensive selection of light switches, control switches, 45A and 50A switches are available for wall and ceiling mounting. All light switches are 10AX rated and are of modular construction. The wide range of modules available ranges from blanks, 1 way and 2 way, through intermediates, key switches and bell push, to 20A rated double pole switch modules.

All modules are simple 1 screw fixing and therefore offer the ultimate in flexibility when devising a custom made domestic grid installation. All Polar™ modules are fully interchangeable and can be used to replace existing modules or to furnish blank plates. In addition Polar™ modules can be used with all relevant items in the Click® moulded and metal ranges.

The gentle curve on the switch rocker of the module facilitates a smooth switching operation as well as providing a modern and distinctive design feature.

MINIGRID®

The products illustrated in this section of the catalogue are finished plates and unfurnished mounting plates.

For information on the full range of modules available please refer to the MiniGrid® section of this catalogue.

Dimmer Switches (Leading Edge)

- PRW140** 1 Gang 2 Way 400Va Dimmer Switch
- PRW145** 1 Gang 2 Way 250Va Dimmer Switch
- PRW146** 2 Gang 2 Way 250Va Dimmer Switch
- PRW147** 3 Gang 2 Way 250Va Dimmer Switch
- PRW148** 4 Gang 2 Way 250Va Dimmer Switch

We recommend the use of branded halogen lamps with all Polar™ leading edge dimmers. The use of inferior, non-branded lamps may require the nominal rating of the dimmer to be reduced. These dimmer switches have not been designed to use with LED lamps. However, they may be suitable for some good quality LED lamps. For further information please contact Click® Technical support team.

Dimmer Switches (Trailing Edge)

- PRW161** 1 Gang 2 Way 100W Dimmer Switch
- PRW162** 2 Gang 2 Way 100W Dimmer Switch
- PRW163** 3 Gang 2 Way 100W Dimmer Switch
- PRW164** 4 Gang 2 Way 100W Dimmer Switch

We recommend the use of branded LED lamps with all Polar™ trailing edge dimmers. The use of inferior, non-branded lamps may require the nominal rating of the dimmer to be reduced. For further information please contact Click® Technical support team.

Power Socket Outlets, Fused Connection Units & Control Switches

All socket outlets are tested and approved to BS1363. Socket outlets are available with single or double pole switches. Twin earth terminals are available on 1 and 2 gang socket outlets in order to comply with regulation 607 of BS7671 IEE Wiring Regulations. As with the plate switches, the actual switch rocker features a gentle curved appearance.
