Ergonomic Electrical Accessories
A Stylish, Contemporary & Flexible Range of Smooth Profile Accessories

There are many crucial elements of any interior design – the more obvious ones are décor and furnishings. Less obvious but no less important are electrical accessories; particularly wall accessories which, by their very nature need to be located in prominent line of sight positions.

When selecting wiring accessories designers have often compromised their schemes as they have been unable to identify a suitably flexible solution to satisfy their ideas.

Mode® accessories can now provide that flexibility with a comprehensive selection of products ranging from the humble light switch and socket outlet through to more specialised products dealing with the very latest developments in telephone and satellite products.

Mode® accessories have been conceived and developed as a high quality, flexible and modern solution to virtually any domestic wiring requirement. The smooth, modern lines of the Mode® accessory plate will fit easily into traditional and contemporary designs alike. The modular design of Mode® allows designers and installers unprecedented flexibility in creating dedicated wiring solutions to deal specifically with actual wiring needs. In other words, there is now no need to compromise Mode® accessories provide the complete solution to modern wiring needs.

Antiviral & Antibacterial Certified

Mode® plates are manufactured using Urea Formaldehyde, which has similar inherent properties to antimicrobial additives that inhibit the growth of infectious diseases.

Mode® plates have been independently tested and have shown to have anti-viral properties against enveloped and non-enveloped viruses.

After a contact period of 4 hours, Mode® was shown to have a 99.9% kill off rate against enveloped viruses and a 92% kill off rate against non-enveloped viruses.

All products independently tested achieved a 99.99% kill off rate across all four types of the strains of bacteria - MRSA, E-Coli, Salmonella, Klebsiella Pneumonia and enveloped viruses.

20 YEAR No Quibble Guarantee

All Mode® accessories are covered by our straightforward ‘No Quibble Guarantee’ against any fault in materials or manufacture experienced at any time within 20 years of the date of supply.

Screw Caps

All Mode® accessories are supplied with screw caps as standard, offering you a protective and decorative option should you wish to use them.
The Mode® range of switches has been developed largely as a modular range based on the large selection of Polar White coloured switch modules available in the Minigrid® range.

These same modules are interchangeable in other Click® accessory ranges. Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

Media transfer plates and modules can be found in the New Media® section of this catalogue.
