Ergonomic Electrical Accessories
Mode® accessories have been conceived and developed as a high quality, flexible and modern solution to virtually any domestic wiring requirement. The smooth, modern lines of the Mode® accessory plate will fit easily into traditional and contemporary designs alike. The modular design of Mode® allows designers and installers unprecedented flexibility in creating dedicated wiring solutions to deal specifically with actual wiring needs. In other words, there is now no need to compromise Mode® accessories provide the complete solution to modern wiring needs.

20 YEAR No Quibble Guarantee

All Mode® accessories are covered by our straightforward ‘No Quibble Guarantee’ against any fault in materials or manufacture experienced at any time within 20 years of the date of supply.

Screw Caps

All Mode® accessories are supplied with screw caps as standard, offering you a protective and decorative option should you wish to use them.
Switches

10AX Plate Switches (Modular)
10AX Architrave Switches (Modular)
Dimmer Switches | Control Switches
45A Switches | 50A Pull Switch

The range of Mode® switches described in the following pages has been developed largely as a modular range based on the large selection of Polar™ white coloured switch modules available in the Minigrid™ module range - see opposite page.

These same modules are fully interchangeable in other Click® accessory ranges such as Metal Clad, Deco® & Define® decorative metal as well as the Polar™ moulded range.

Simple, single screw fixing of modules offers the simplest possible means of installing and replacing modules.

Dedicated media transfer plates and modules are dealt with in the later pages of this catalogue in the New Media™ section.

The products illustrated in this section of the catalogue are finished plates and unfurnished mounting plates.

For comprehensive information on the full range of modules available please refer to our Minigrid™ product brochure.
Switches

Unfurnished Plates

For the complete range of Minigrid™ modules, see the dedicated Minigrid™ section, page 18.

- WA518: 3 Tier 47mm Deep K.O. Box

Galvanised steel back boxes supplied for flush mounting of the large Minigrid™ plates.

Dimensions: WA512: 137mm x 137mm, WA518: 137mm x 197mm
Power Socket Outlets, Fused Connection Units & Control Switches

All Mode® 13A sockets and fused connection units are tested and approved to BS1363 offering assured quality and safety.

The provision of large twin earth terminals on our Two Gang sockets and fused connection units greatly facilitates wiring and installation.

The Mode® range offers a solution for almost every possible design need and will enhance the décor of any area whether in a kitchen, bedroom, lounge or study etc...

We recommend the use of branded halogen lamps with all Mode® dimmers. The use of inferior, non-branded lamps may require the nominal rating of the dimmer to be reduced. These dimmer switches have not been designed for use with LED lamps. However, they may be suitable for some good quality LED lamps. For further information please contact the Click® technical support team.

Connection & Flex Outlet Plates

TV, Telephone & Data Sockets

Providing the means to facilitate the connection of modern communications equipment is as important today as it is to provide the electrical power to operate them.

This section of the catalogue is devoted to the New Media™ range of plate accessories which includes products for connecting telephone, computer, television and satellite devices.

Click® dual voltage shaver outlets incorporate a double wound isolating transformer rated 20VA at 230V or 115V and meets BS EN 61558-2-5: 2010 making it safe for use in bathrooms. Shaver outlet is not continuously rated and therefore not suitable for use as a permanent charging outlet.

- **Flex Outlet Plates**
  - CMA017: 20A Flex Outlet Plate
- **45A Cooker Connection Plates**
  - CMA215: 45A 1 Gang Cooker Connection Plate
- **45A Cooker Outlet Plates**
